

Eurocopter BO-105 Installation

November 2009

Southeast Aerospace recently completed a Garmin retrofit of a BO-105 helicopter.

SEA began the installation with several Garmin systems, including GNS-530W NAV/COM/GPS, GDL-69 XM Weather Receiver, and other systems.

The GNS-530W was installed IAW Garmin's new helicopter STC AML. A new instrument panel was fabricated and all overlays were refurbished.

In addition to the Garmin installation, all cabin interior parts were refurbished, including: seats, fabric, and carpet. As an added feature, new LED map lights were also installed.

For more detailed information regarding this Eurocopter BO-105 installation, please contact Rob Reed of SEA's Install Team at reed@seaerospace.com or call 321-255-9877 ext. 228.
