

NorthStar Aviation 407MRH State of the Art Mission Equipment Package

Southeast Aerospace recently delivered the 22nd of 30 heavily modified Bell-407GX aircraft to NorthStar Aviation LLC. After modification, the helicopters, designated as the NSA 407MRH aircraft, are used as a light attack and armed reconnaissance platform by a foreign military customer. Systems include Intelligence Surveillance and Reconnaissance (ISR), Mission Systems and Communications upgrades. The modifications are being completed at SEA's facilities in Melbourne, Florida.

SEA design includes:

- Digital Audio/ICS
- UHF/VHF/SATCOM
- IFF Transponder
- Electronic Standby Instrument
- Iridium Tracker
- Radio Altimeter
- Stores Management System
- Mission Management System
- EO/IR Sensor
- Video Downlink
- TACAN
- NVIS Modifications
- Composite Mission Doors
- Composite Driveshaft Cover
- ELT
