## S-61 Medium-lift Helicopter AAR/ALE-47 Installation

Southeast Aerospace designed installation kits and is installing the AAR-47 and ALE-47 missile warning and flare dispense systems in four S-61 helicopters. One aircraft was modified at the SEA facility in Melbourne, Florida. Three additional aircraft are being modified by an SEA modification team on site in the Northeast, United States.

SEA design included:

- Systems electrical interface
- Forward/AFT sensor fairings
- 2-Axis flare dispenser bracket fabrication for a six dispenser system
- Tailboom structural fortification

The aircraft mission is to provide safe transportation for US Government personnel in Southwest Asia.

FAA/EASA APPROVED REPAIR STATION # S66R266N
