

# ELT Shipping Guidelines

Due to recent changes in the shipping guidelines for ELTs and batteries, Southeast Aerospace is publishing the ELT shipping guide for your convenience.

ELTs and batteries are classified as Hazardous Materials due to the Lithium battery. There is a significant fine for improper shipping of items with over 1 gram of Lithium.

The information provided by this guide is for your reference only, and you should always review shipping procedures with your SEA sales representative.

Southeast Aerospace's policy is to provide the very best customer service.

## Guidelines for shipping ELT Assemblies & Batteries:

ELT with Battery Attached	
Domestic Air =	FedEx Only*
Domestic Ground =	UPS*
International =	FedEx Only*

Battery Only	
Domestic Air =	FedEx Only
Domestic Ground =	FedEx Only
International =	FedEx Only*

**\* IMPORTANT Notes:**

- Overnight Shipping is not guaranteed for items with hazmat.
- FedEx will not deliver ELTs and batteries to all countries. Be aware of your country's ELT delivery policies.

**It is the responsibility of the shipper to be familiar and trained in international Hazardous Material shipments. Please reference [www.iata.org](http://www.iata.org) for more information.**
