Calgary, Alberta T2E 6Z8

December 1, 2025

Southeast Aerospace Inc.
1399 General Aviation Dr.
Melbourne, Florida 32935

Attention: Gemmy Liang, Director of Certification

Subject: Acceptance of FAA STC SA04529AT, latest date of re-issuance November 15, 2021.

This is in response to an application from the FAA requesting Transport Canada approval of the subject STC, dated November 17, 2025.

In accordance with our current policy associated with the review of foreign STCs, some STCs applicable to certain categories of aircraft may be accepted solely on the basis of their foreign certification, and do not require the issue of a corresponding certificate by Transport Canada. The subject STC falls within these criteria.

This STC will be entered in the national index of STCs that have been reviewed and accepted by Transport Canada for installation on Canadian registered aeronautical products. The index can be viewed at the following Web page: <http://wwwapps.tc.gc.ca/saf-sec-sur/2/nico-celn/>

This letter confirms formal acceptance of the referenced STC by Transport Canada. This acceptance reflects the models applicable at the time of application. Addition of models to an FAA STC – or an associated Approved Model List (AML) – that are not included in the “U.S. Eligible Aircraft List” found in Appendix B of the FAA/TCCA Implementation Procedures constitutes a change and application is required in accordance with those same Implementation Procedures in order to update this record.

cc: Federal Aviation Administration, Aircraft Certification Office
1600 Stewart Ave, Suite 410
Westbury NY 11590

Best regards,

Wade Kennedy, P.Eng
